

# Penny

AHI

Savin' every penny I find  
'Til I find me enough  
'Til it all adds up  
To my lucky day

Mama said I'm gonna be rich  
But I don't mind bein' poor  
I don't need nothing at all  
I only need you to stay

You got me broke and beat, like a beggar hopin' you come back  
But you can't see where the coin'll drop until it's out of your hands  
I've been weepin' by the wishin' well wonderin' went wrong  
'Cause you don't know what a Penny's worth until the Penny is gone  
And she's gone

Tell me, what is it gonna cost  
Before I see her return?  
Is there a lesson to learn?  
I'm runnin' out of time

Ever since you walked out the door  
I been payin' a price  
Girl, let me make it right  
Tell me you won't decline

You got me broke and beat, like a beggar hopin' you come back  
But you can't see where the coin'll drop until it's out of your hands  
I've been weepin' by the wishin' well wonderin' went wrong  
'Cause you don't know what a Penny's worth until the Penny is gone  
And she's gone

Gone  
Come back where you belong  
'Cause you don't know what a Penny is worth until the Penny is gone  
And she's gone  
You'll always be the one I want  
'Cause you don't know what it's really worth until the Penny is gone

You got me broke and beat, like a beggar hopin' you come back  
But you can't see where the coin'll drop until it's out of your hands  
I've been weepin' by the wishin' well wonderin' went wrong  
'Cause you don't know what a Penny's worth until the Penny is gone  
And she's gone

Savin' every penny I find  
'Til I find me enough
