AHI

God laughed when I met you
Knew this was the one I couldn't wrestle
Been saved by the way that you settle me down
Your heart is a blueprint
And my stubborn mind is a whirlwind
Each day you erased every one of my doubts

If it ain't wrong, don't fix it
If it gives you life, live with it
If it seems right, don't mess it up
When the feeling's strong, don't overthink it
If it's all you want, better stick with it
Don't waste no time when you've found the one
'Cause you're in my plans
I wanna live lifelong in your hands
You're in my plans

Now I'm done with debating
Had to let go, let life orchestrate it
Wherever this goes, then I'm going with you

If it ain't wrong, don't fix it
If it gives you life, live with it
If it seems right, don't mess it up
When the feeling's strong, don't overthink it
If it's all you want, better stick with it
Don't waste no time when you've found the one
'Cause you're in my plans
I wanna live lifelong in your hands
You're in my plans

This is not a decision 'cause you know I'll give it up
I will give it all for you
There is no second guessing, I'm ready to give it up
I give it all

'Cause if it ain't wrong, don't fix it
If it gives you life, live with it
If it seems right, don't mess it up
And when the feeling's strong, don't overthink it
If it's all you want, better stick with it
Don't waste no time when you've found the one
'Cause you're in my plans
I wanna live lifelong in your hands
You're in my plans
I wanna live lifelong in your hands
You're in my plans
