

Say It To Me

AHI

Your words are not lost
Your voice is not weak
If no one will hear you
Say it to me

When your secrets are heavy
And you're ready to scream
I'll carry the burden
Say it to me

Call, I'll be listening
Tell me everything
Whatever you need
All, of your whispers
Tell me everything
Oh, say it to me

This darkness will scatter
And your troubles will flee
There's nobody left here
Say it to me

Call, I'll be listening
Tell me everything
Whatever you need
All, of your whispers
Tell me everything
Oh, say it to me

If you need someone to hear you...
Don't you need someone to hear you...
If you need someone to hear you...
Oh, say it to me
If you need someone to hear you...
Don't you need someone to hear you...
If you need someone to hear you...

If you need someone to hear you...
Say it to me
Say it to me
Oh, say it to me
