

Soul Checked

AHI

Do what you do 'cause somebody has to do
The things you see worth doing
Go where you go 'cause somebody has to go
Places that are worth going

You can build your lowly house on higher ground
From there where you stand you can watch the world spinning 'round
And if you sweep those palace streets one day you will be crowned
So just hold onto the keys, you'll see there's plenty to be found

And make sure, make sure, make sure

Your soul checked, and your mind checked, and your heart checked
So you can be no one else
Is your soul checked, and your mind checked, and your heart checked
You can be no one else
No one else, No one else
No, no, no one else

Say what you say 'cause somebody has to say
Those things that are worth saying
Feel what you feel 'cause somebody has to feel
All that there is worth feeling

You can build your lowly house on higher ground
From there where you stand you can watch the world spinning 'round
If you sweep those palace streets one day you will be crowned
So just hold onto the keys, you'll see there's plenty to be found

And make sure, make sure, make sure

Your soul checked, and your mind checked, and your heart checked
So you can be no one else
Is your soul checked, and your mind checked, and your heart checked
You can be no one else
No one else, no one else
No, no, no one else

Do what you do, oh-oh
Give all you are, oh-oh
Be who you be
And make sure, make sure, make sure

Do what you do-oooh-oooh (Oh, oh)
Give all and more (Oh, oh)
Be who you be
And make sure, make sure, make sure

Your soul checked, and your mind checked, and your heart checked
So you can be no one else
Is your soul checked, and your mind checked, and your heart checked
So you can be no one else

Is your soul checked, child
And your mind checked, now
And your heart checked, Lord
You can be no one else

Is your soul checked, child
And your mind checked, now
And your heart checked, Lord
You can be no one else
No one else, no one else
No, no, no one else
