We All Know

AHI

People in the world
What is going on?
Something's going down
We all know

Wealthy wanna play
Penny-pinching games
Let it trickle down
We All Know

There's few things in life I ask before I die
I don't need to be rich, but why should I beg for a dime?
If they think that our lives are cheap, they're in for a swift surprise
If it's for the greater good, now, why do they hide behind lies?

We all know

People in the world
There's a hidden hand
Nobody can trust
We All Know

System wanna play
Play us like we fools
But they ain't trickin' us
We All Know

There's few things in life I ask before I die
I don't need to be rich, but why should I beg for a dime?
If they think that our lives are cheap, they're in for a swift surprise
If it's for the greater good, now, why do they hide behind lies?

We all know

(We... all... know...) We-e-he-he all know
You can't tell no lies now
(We... all... know...) We-e-he-he all know
The truth you can't hide now
(We... all... know...) We-e-he-he all know
It keeps going on, Lord
(We... all... know...) We-e-he-he all know
On and, and on now
We All Know

People in the world
Where have we gone wrong?
Could we be going down?
We All Know

There's few things in life I ask before I die
I don't need to be rich, but why should I beg for a dime?
If they think that our lives are cheap, they're in for a swift surprise
If it's for the greater good, now, why do they hide behind lies?

We All Know

I know-oh-ho, o-oh-ho

We all know
I know, I know, I know, I know, I know-oh-ho
We all know
I know-o-oh-ho, o-oh-ho
We all know
I know, I know, I know, I know, I know-oh-ho
We all know
Whatchu gon' do, you can't hide, no no no
We all know
We ain't buyin' no more lies, no no no
We all know
People cryin' save our souls, oh my Lord

We all know
