

# We Want Enough

AHI

Oh children, gather 'round  
If they ask us why we're here we'll shut 'em down  
We got answers but not the means  
'Cause all our dreams were sold to birth this cold machine

And we can't turn it off  
You hard it hard, we got it rough [?]  
And we ain't askin' much  
We don't want it all  
We just want enough  
We want enough

Clouds fallin' into bits  
On the warehouse city where all the world exists  
Amidst the shambles we got the cross  
And now we're tryin' to spin a future from this junk

And you can't stop us now  
'Cause we're products of  
What you've begun  
No we ain't askin' much  
We don't want it all  
We just want enough  
We want enough

Go single file  
Are we out of line  
Who said [?] and what's the cost, we're buyin' time  
Go single file  
Are we out of line  
We're on the brink, we're on the cusp  
We don't want it all  
We just want enough

We want enough  
We want enough  
We want enough
