obvious

Aidan Bissett

I was trying to hold tight
But to tell you the truth
I've been making things worse trynna make this all work
Guess I'm a bad liar

Now I'm starting to break, I
Never thought I would lose sight
I'm coming undone like the tip of my tongue
I'm such a bad liar

I, I could die
Picturing your
Lips on my lips, lips on mine

It's obvious
You're telling me you wanna come over
So innocent
But it's such a mess
You're probably gonna stay to the morning
We can't be friends

You're pulling me close now
And I don't think we can slow down
You're making that face and moving that way
We're walking that wire

I, I could die
Picturing your
Lips on my lips, lips on mine

It's obvious
You're telling me you wanna come over
So innocent
But it's such a mess
You're probably gonna stay to the morning
We can't be friends
No, no, we can't be friends

You laugh and call me a cynic
Let's kiss and say that we didn't
Oh baby, who are kidding?
We're just wasting time
Slow hands and stupid decisions
Let's kiss and say that we didn't
Oh baby, who are kidding?
We're just wasting time

It's obvious
You're telling me you wanna come over
So innocent
But it's such a mess
You're probably gonna stay to the morning
We can't be friends
We can't be friends, we can't be, can't be
