

Twenty Something

Aidan Bissett

Call me when you need a shoulder
Tell me that you're coming over (Coming over)
Staying up in bed, damn, how's it 3AM?
You come in closer
I say, "Take it slower"

You know I really love
That we can talk this way
I want to say too much
But it's too soon to say

I only like it when you look at me
I only like it the way you blink and breathe
But love's an education
Let's wait 'til graduation
You got hearts you should be breaking
Mistakes you should be making
Oh, but every time you look at me
I wanna tell you, oh, the way I feel
But if we got together
We'd fuck it up forever
So I'm not saying nothing
Until we're twenty something, yeah

You go out with him
But you know that he'll never really know you (Like I know you)
Right now we're just friends but I know how this ends
You'll feel the difference
When I hold you

Telling you to go
Is the hardest thing to say
Telling you to go
When I want you to stay

I only like it when you look at me
I only like the way you blink and breathe
But love's an education
Let's wait 'til graduation
You got hearts you should be breaking
Mistakes you should be making
Oh, but every time you look at me
I wanna tell you, oh, the way I feel
But if we got together
We'd fuck it up forever
So I'm not saying nothing
Until we're twenty something, yeah

End of the night, we're alone (You ask)
You ask me where this is goin' (I know)
But I'm not saying nothing (Not yet)
Until we're twenty something
Until we're twenty something
(Until we're twenty something)

I only like it when you look at me
I only like it when you blink and breathe

But love's an education
Let's wait 'til graduation
You got hearts you should be breaking
Mistakes you should be making
Oh, but every time you look at me
I wanna tell you, oh, the way I feel
But if we got together
We'd fuck it up forever
So I'm not saying nothing
Until we're twenty something, yeah
