

# Worst Girls Of All Time

Aidan Bissett

Goodbye

Fuck you, you're a liar and a hater and a cheater  
I'm here for myself, baby I just don't need ya  
Where do you think you're going?  
I saw you with him and now you seem foreign

I'm not just some toy you can play with  
I'm doing better off without your shit  
Leave it to me to find  
The worst girls of all time

You said you lost feelings, I know that you're lying  
You have been with him since day one, stop crying  
Who do you think you're fooling?  
I won't wait up cause I just keep moving

I'm not just some toy you can play with  
I'm doing better off without your shit  
Leave it to me to find  
The worst girls of all time

Who needs you when I got all my friends posted in the backseat  
We've been running, vibin', without all your negativity  
I can't stress the little things you did that made me go crazy  
Just stay away I'm better off cause I don't want you anymore  
Anymore  
Anymore  
Anymore
