

Jenny

Aidan Hawken

Jenny, i have this perfect dream
we are close and there is nothing in between
your eyes are deep like the sea
but warm like the sun

jenny, you wake up in my arms
i hold you close and keep you safe from any harm
and like a warm summer breeze
you're calm, you believe in me

we feel the ground beneath our feet
when we embrace we are complete
we see the colors and the beauty of this place
as we reach from the earth to the sky, so high...

jenny, you are my perfect love
sent so clearly from the heavens up above
and where you are is my home
my soul has always known

these are my most thought out words
and my most precious melodies
this is my most perfect dream
nothing between our love, our love, our love...
