

## Easy

Aidan Martin

(My love, my love, my love)  
(My love, my love, my love)  
(My love, my love, my love)

I just wanna hold you close  
I wanna breathe in all your chemicals  
But they're flammable  
Never get the chemistry right  
Now we're blowing up in the night, night

I know that you feed me lies  
And I keep swallowing them every time  
Just to say your mine  
Never been that good with pain  
It's easier to walk away

Why?  
Why?  
Why? Why? Why?

Why do I always choose somebody  
Who's gonna make a mess out of me?  
Oh, God, what's wrong with me?  
My love don't come easy  
Every time I fall from grace  
It's all the way from out of space  
Oh, God, what's wrong with me?  
My love don't come easy

I just wanna say the words  
But I still wait for you to say 'em first  
Then the bubble burst  
Always tryna fall too far  
Then I hit the ground too hard

I want something more than a weekend  
Someone who can dive in the deep end  
I just wanna know from the start  
That everything I need's what you are

Why do I always choose somebody  
Who's gonna make a mess out of me?  
Oh, God, what's wrong with me?  
My love don't come easy  
Every time I fall from grace  
It's all the way from out of space  
Oh, God, what's wrong with me?  
My love, it don't come easy

(My love, my love, my love)  
I don't know what's wrong with (my love, my love, my love)  
Don't know where I'm going (my love, my love, my love)  
My love, no it don't come easy  
(My love, my love, my love)  
And if we're being honest (my love, my love, my love)  
Oh, it's already broken (my love, my love, my love)  
My love, ooh

I just wanna hold you close  
I wanna breathe in all your chemicals  
But they're flammable  
Never get the chemistry right  
Now we're blowing up in the night
