

# Animal

Aiden Grimshaw

We're always the same  
She comes and she goes  
She's got a wild side  
She stole me away  
She comes and she goes  
Like a thief at night, always

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

Come put my finger on it  
Shouldn't have lied, but I  
Shouldn't be crying, I  
Wish we didn't exist  
Playing all these games

I got caught in your love  
And you're always lost  
And I was stupid to trust it, I  
Wish we didn't exist  
Playing all these games  
We're always the same

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

Come put my finger on it  
Shouldn't have lied, but I  
Shouldn't be crying, I  
Wish we didn't exist  
Playing all these games

I got caught in your love  
And you're always lost  
And I was stupid to trust it, I  
Wish we didn't exist  
Playing all these games  
We're always the same

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

White lies and alcohol  
Chemical, camouflage  
You're so animal  
Tell me when the love is gone

Take what you want and I'll be what you need  
I'll bet that you get the best of me  
The best of me is what you need  
Let me be all that I can be
