## **Silent Eyes**

This is the last time through hell, I've seen your insides Tear out your eyes tonight, you'll see Is this where my angel lies? I've cut you up to see me Am I worth a thousand lies? Infect your perfect slice up skin

You wrote the book on silent eyes And I wrote this song to say goodbye This is the last time that I'll...

It's raining in cuts so bright, The screaming soothes the anger I've never been so scared alive When friends that crash goodbye Their soul will change the future and that's where the beauty in death resides Infect your perfect slice up skin

You wrote the book on silent eyes And I wrote this song to say goodbye This is the last time that I'll...

Save the rain he's alive Save the rain he's alive (2x)

Friends that crash goodbye Your soul will change the future and that's where the beauty in death resides Infect your perfect slice up skin

You wrote the book on silent eyes And I wrote this song to say goodbye (2x) This is the last time that I'll cry Aiden
