Goodbye Now (□□□ □□)

Ailee

I threw it all away, all the times with you
One by one, without you, I'm forgetting

I write letters word by word
But there's no one to read it

Goodbye now, goodbye for real, leave me
Forget all the times we spent together
Goodbye now, goodbye for real, leave me
I call you again several times but I can't figure you out
Goodbye now

I keep thinking of the times I spent with you
When I walk, walk without you, I think of you

Traces of you that remain in each corner of my room
I burn them up without a sound

Goodbye now, goodbye for real, leave me
Forget all the times we spent together
Goodbye now, goodbye for real, leave me
I call you again several times but I can't figure you out
Goodbye now

I said I wouldn't be able to endure it
But now I don't even hope for you to come back

Goodbye now, goodbye for real, I let you go
I wash away all the memories we had together
Goodbye now, goodbye for real, leave me
I call you for the last time but there's no answer
Goodbye now

Goodbye now
