

Insane

Ailee

I pray every night
(in a dream) that I want to meet you
Inside your arms that are not next to me
Wanna be hugged warming all day long babe

I'm good enough only with you
The only light of the world,
I appreciate your presence to become the one and only lady in your world babe

I come into your dream first Meet your eyes
Whispering the eternal love
Then go back in the morning

Ooh babe
I hope you know I love you insane sane sane
I love you insane sane yeah
I'll love you the same same same
Be with me little longer yea

I don't wanna be alone alone
I don't need a wake up call wake up call
Even after opening my eyes love you insane

I remember your scent left
I'm used to this Deja vu baby
I close my eyes waiting to meet you again
Falling into the deep sleep that I won't wake up, be with you
so we can love again

I come into your dream first
Kiss you and say regretful good bye again
I go back when the time is up
Ooh babe I hope you know I love you

insane sane sane
I love you insane sane yeah
I'll love you the same same same
Be with me little longer yea
Even after opening my eyes love you insane

I said I don't wanna be alone
Oh I don't need a wake up call
Your smile I cannot forget
Wandering around inside my head
Not to make me sad, not to make me cry
Cause baby I'm insane for you

insane sane sane
I love you insane sane yeah
I'll love you the same same same
Be with me little longer yea

I don't wanna be alone alone
I don't need a wake up call wake up call
Even after opening my eyes love you insane
