

Make Up Your Mind

Ailee

You take your time
It's like watching paint dry
Don't waste my time
Baby make up your mind

You and me ain't gone too deep
Don't have no anniversary
But I'm sleeping with your T-shirt on
And we're good at keeping your bed warm

So come on tell me what you're thinking
Say what ya, say what ya
Say what ya mean
I hear there's company you're keeping
Is that why when I'm like
Will we ever be a thing

You take your time
It's like watching paint dry
You say you're mine
When it suits you so go
Handle your business
I won't get in it
Feel who you're feeling tonight
But don't waste my time
Baby make up your mind
Make up your mind
Make up your mind

Do you even really know
Why you're hot and why you're cold
It's like I'm the only thing you want
Until we put a label on

So come on tell me what you're thinking
Say what ya, say what ya
Say what ya mean
I hear there's company you're keeping
Is that why when I'm like
Will we ever be a thing

You take your time
It's like watching paint dry
You say you're mine
When it suits you so go
Handle your business
I won't get in it
Feel who you're feeling tonight
But don't waste my time
Baby make up your mind
Make up your mind
Make up your mind

When you say you're in
Are you really really in
Make up your mind
When you say you know

Do you really really know
'Cause I wonder why

You take your time
It's like watching paint dry
You say you're mine
When it suits you so go
Handle your business
I won't get in it
Feel who you're feeling tonight
But don't waste my time
Baby make up your mind
Make up your mind
Baby Make up your mind
