

# What If I

Ailee

From the very second I saw you baby  
Thoughts running through my head  
I know it's you  
Yet you kept running  
Letting all of these glimpses of you  
Flee with my sanity  
It's you

You know I'd take your bullets for you  
If you'd just say what's on your mind  
I shoulda known  
That look before you and I fell in lust

But what if I just shut my eyes  
Cause how could I forget  
Oh what am I  
If I don't have you inside my every moment  
Making me so blind, so blind  
You blind, you blind me  
Still it feels so right, so right  
You blind, you blind me

You know I'd take your bullets for you  
If you'd just say what's on your mind  
I should'a known  
That look before you and I fell in lust

But what if I just shut my eyes  
Cause how could I forget  
Oh what am I  
If I don't have you inside my every moment  
Making me so blind, so blind  
You blind, you blind me  
Still it feels so right, so right  
You blind, you blind me

Images run into me  
Every day thinking 'bout  
Your presence illuminates me  
See my eyes clothed in crimson  
Every time all  
That I can do is close the curtain yeah

But what if I just shut my eyes  
Cause how could I forget  
Oh, what am I  
If I don't have you inside my every moment  
Making me so blind, so blind  
You blind, you blind me  
Still it feels so right, so right  
You blind, you blind me
