

## God Talks

Aimee Allen

Nothing ever happens here  
So I learned to dance  
in front of the mirror  
for all of my fans.

Nothing ever happens here  
it's no big surprise  
I pull out my hair  
and I cry out my eyes

I feel it, feel it  
coming on like a song  
want to sing it  
I feel it, I feel it

When God talks to me  
When God walks with me  
and God talks to me  
and I don't think they understand

All that matters  
is that you want to live  
your greatness to be had  
is the greatness that you give

No I am no prophet  
but I have seen it all  
No I am no soldier but  
I have seen my people fall

When God talks to me  
When God walks with me  
and God talks to me  
and I don't think they understand

Nothing ever happens here  
I'm down on my knees  
Mother Mary come to me  
Please please please

No I am no devil  
but depends on who you ask  
But I have been down that road  
and I'm never going back.

When God talks to me  
When God walks with me  
and God talks to me  
and I don't think they understand

Nothing ever happens here  
it's no big surprise  
I pull out my hair  
and I cry out my eyes

All that matters  
is that you want to live

your greatness to be had  
is the greatness that you give

God talks to us  
God walks with us  
God talks to us  
will they ever understand
