

Fight Street (2011 Demo)

Air Raid

Night is falling
you are shivering with fear
on your way now
it's your heartbeat
that you hear

Coming close now
on the street up ahead
you can feel them
you can sense
the smell of death

Wheels are rolling
hell is near
see the fire
you're here

In the Fight Street
you will rise
In the Fight Street

Day is rising
but it's just another day
you are dying
and no help is on the way

Reminiscence
of a life long ago
all that's left now
blood and pictures
an a wall

Wheels are rolling
hell is near
see the fire
you're here

In the Fight Street
you will rise
In the Fight Street

You were hoping
for an angel to appear
Demons now
your skin will sear

You were blinded
and you had
to get revenge
you've succeeded
but you've riden
to the edge

Wheels are rolling
hell is near
see the fire
you're here

In the Fight Street
you will rise
In the Fight Street
