

Does It Matter

Air Supply

Does it matter if you're not sure
You're never gonna see him anymore
He's gone for good
You might get mad at yourself
You're doing your very best
You can't do nothing else baby
You've done the best you can
There's been good times
You know there have been reasons
You still don't say you want somebody else
You want somebody else
I'm giving you just one more chance
To recompense on my romance
Can't believe there's been good times
You know there have been reasons
You still don't say you want somebody else
You want somebody else

I'm gonna stay with you baby
Yes I will
Stay with you baby
Yes I will
