

Shake It

Air Supply

Come back, baby, don't you run away
You're way too cute and I've got something to say
I've always been dreaming about falling in love
Now I'm looking at an angel from heaven above

We're gonna rock, we're gonna roll
We're gonna shake it before we get old
We're gonna dance all night
We're gonna may may may may make it
Shake it shake it shake it tonite

If you come a little closer I promise I'll be good
You know that you're the most and it's understood

You're looking so sweet in those drainpipe jeans
From your head to your toes and all the in betweens
You're feeling the beat and you can't stand still
If you want to dance together you know I will

We're gonna rock, we're gonna roll
We're gonna shake it before we get old
We're gonna dance all night
We're gonna may may may may make it
We're gonna shake shake shake it tonite

We're gonna rock, we're gonna roll
We're gonna shake it before we get old
We're gonna dance all night
We're gonna may may may may make it
Shake it shake it shake it tonite
