

## Any Way

Air Traffic Controller

I swore I love you  
'Til I die and it's still the truth  
So don't walk away  
I'm sorry girl, stay  
Do you really mean everything that you say? Anyway?

I must confess, I'm in distress  
My life was good now I'm just a mess  
Do you think we could try love again?  
One thing's for sure: we could never be friends, anyway  
Anyway

If there's any way I could get you to stay, there's no words I  
could say  
There's no song I could play  
But every day you're drifting further away  
From me  
We used to fit together perfectly

You call me selfish  
But you know you're wrong  
I'm thinking of you every song

You say you're tired  
But you are wrong  
Do you think there's someone else for you under sun?

Anyway... Anyway... Anyway

If there's any way I could get you to stay, there's no words I  
could say  
There's no song I could play  
But every day you're drifting further away  
From me  
We used to fit together perfectly

Anyway  
Anyway
