

Different

Air Traffic Controller

I thought about you every day
Since the incident
And how I couldn't stay
Didn't want you thinking I'm a bad guy
Ain't no need to question my integrity

The emotion was strong
Lasted longer than I hoped that it would
Kinda sorta built a reputation
Biting off a little more than I should

Ooh, this could be different
Ooh, we could be good friends
Love is just the same

The city is a lonely place for the curious
Everyone is in their floors
You hardly meet the eyes of a stranger
Never mind hold a whole conversation

But luckily I knew someone
That someone knew someone who knew you
Could've been an awkward situation
After all, it's someone that you barely know

Ooh, this could be different
Ooh, we could be good friends
Love is just the same

And we run into the ocean
We're swimming in a hurricane
I know they tell you not to
'Cause the army toll will you pour you in

Ooh, this could be different
Ooh, this could be different
Ooh, this could be different
Ooh, we could be good friends
Love is just the same
