

Get It Over With

Air Traffic Controller

I know I am what I do
But that's just not convenient at all for you
I don't know what you want
But this sure as hell ain't it
Let's just get it over with

I jump as high as I can
I know sometimes it seems like I'm never gonna land
I'm not sure that I want to, though I've got everything to lose
Let's just get it over with

We could try, we could try
'Til one of us is fed up with this
We could try, we could try
'Til one of us just quits
Let's just get it over with

We fight, we break, and we mend
Each time I think it's over, it's not over again
How can this be love if we're not the best of friends?
Let's just get it over with

Alone, afraid, and upset
The ending would be awful, come on let's not forget
This is what we are now, what more can we expect?
Let's just get it over with

We could try, we could try
Yeah, we could do it all over again
We could try, we could try
'Til one of us just can't
Let's just get it over with

Something, it could change
But only a little bit
Or maybe we should wait
Let's just get it over with

Something, it could change
But only a little bit
Or maybe we should wait
Oh, let's just get it over with

I know I am what I do
But that's just not convenient at all for you
I don't know what you want
But this sure as hell ain't it
Let's just get it over with

We could try, we could try
But we deserve a little something else
We could try, we could try
Yeah, why don't we move on and be ourselves
Let's just get it over with

Something, it could change
But only a little bit

Or maybe we should wait
Let's just get it over with

Something, it could change
But only a little bit
Or maybe we should wait
Let's just get it over with
