

Magic

Air Traffic Controller

Just a kiss
But oh my god
It was magic
The only thing about it all
Is kinda tragic

That's the only thing I can remember
About a moment that we had back in November
Is that we kissed
And oh my god
It was magic

Sometimes you don't know
If it's real or some kind of magic show
And so all you can do
Is pretend it's all true

Was it raining on that street? Or was it snow?
Did I sweep you off your feet? Girl, I don't know...
Everytime I close my eyes I see you
But I can't imagine what the hell did we do
After we kissed
But oh my god,
It was magic (magic)

Sometimes you don't know
If it's real or some kind of magic show
And so all you can do
Is pretend it's all true

Yeah, sometimes you don't know
If it's real or some kind of magic show
And so all you can do
Is pretend it's all true

Is it for real? Is it a dream?
'Cause I'm in bed, alone it seems
Your dress was red, I'm pretty sure
Your lips were wet, girl I want more, more, more
Than just a kiss, 'cause oh my god
It was magic

Sometimes you don't know
If it's real or some kind of magic show
And so all you can do
Is pretend it's all true

Yeah, sometimes you don't know
If it's real or some kind of magic show
And so all you can do
Is pretend it's all true

Sometimes you don't know if it's real
Sometimes you don't know if it's real
And so all you can do is pretend it's all true
(Sometimes you don't know)
(It's real, so real)
