

## On The Wire

### Air Traffic Controller

I was a child  
All young and mild  
And you were a lion  
All brave and wild  
I was a fighter  
Naively inspired  
By the hands of a liar  
And a life on the wire

I was no wiser  
Along for the ride  
A spark in the fire  
A balancing light

I can feel the tension  
I can almost hear the angels choir  
Better pay attention  
On the wire

You're my constant reminder  
That I'm just a spider  
And maybe you'll find her  
Out on the wire

I can feel the tension  
I can almost hear the angels choir  
Better pay attention  
On the wire

I can feel the tension  
I can almost hear the angels choir  
Better pay attention  
On the wire
