

Ready Or Not

Air Traffic Controller

Ready or not, here I come
Well, that's the school of thought I'm from
I must admit I'm not that dumb anymore
'Cause I've been burned, babe
Yeah, I learned to take my time
And I'm sorry that I'm taking yours

I never wanted it to be like this
Thought my luck had changed with our first kiss
It lasted hours
It seems nothing lasts forever

Listen to me, do I sound happy?
Do I sound ready, or not?

But you can cloud my mind
Cloud my mind with love
I wish you would
And we could dive in blind
Swim around in this flood
'Cause it feels good

But if we both rewind
To a time where I had you at "hello"
Ready or not
Here we go

We got a shot, we're not so complicated
I never fought or hated you
This is my ultimatum, too
'Cause it's our turn, babe
And we're gonna learn to do this right
Yeah, I'm sorry that it's taken years

I never wanted it to be like this
But it all could change with just one kiss
It could last a long time
And it could even last forever

So listen to me, if you want happy
Do you want ready, or not?

Ready or not, here I come
Are you ready?

Then you can cloud my mind
Cloud my mind with love
I wish you would
I wish you would dive in blind
Swim around in this flood
Yeah, it feels good

But if we both rewind
To a time where I had you at "hello"
Ready or not
Here we go

You cloud my mind
You cloud my mind with love
And you dive in blind
Swim around in this flood

Yeah, we both rewind
To a time where I had you at "hello"
Ready or not...
