

This Hell

Air Traffic Controller

Last straw done broke the camel's back
They say that lightning never strikes the same place twice
But look at that
Your life for the taking
This nightmare you're not waking from

Think back to what your mother said
She doesn't always say the right thing
But the right thing's in your head
You're finally breaking
Decisions are not making sense

Anything is possible
Even the impossible
I know you've been cursed
But this can be reversed
After everything you lost
Every penny that it cost you
It doesn't get much worse
But you wouldn't be the first
To survive this kind of hell
If I know you well, you will
Survive this hell, you will

Another day has gone to waste
The finest of doctors can't treat this case
These symptoms are killing
These buildings are named after saints

Hallway illuminates the door
You exit, the floor isn't cold no more
The chorus is sounding
The love is surrounding you now

Anything is possible
Even the impossible
I know you've been cursed
But that can be reversed
After everything you lost
Every penny that it cost you
It doesn't get much worse
But you wouldn't be the first
To survive this kind of hell
If I know you well, you will
Survive this hell, you will

Rock bottom is an awful place
I can see it in your face
Taking over every space
In your body but it's not too late
Rock bottom is an awful place
I can see it in your face
Taking over every space
In your body but it's not too late

It doesn't get much worse
But you wouldn't be the first

To survive this kind of hell
If I know you well, you will
Survive this hell, you will

You will survive this hell, you will
