

Warrior

Air Traffic Controller

Oh, you call me up
You've got me running like a spider in a bathtub
Age, is calling out
Don't you know I'm just a child with a big mouth?
Keep, your lessons learned
And bridges burned, wait your turn
Sell, your shoes for gold
That you can hold, 'till you get old

You can't call me Warrior
And turn on your heels, right out the door
You can't call me Warrior
Don't call me that, don't call me that

Because, you twist my words
God, it hurts to know the devil gets his way first
Sell, you show for pride
That you can hide 'till you can find

You can't call me Warrior
And turn on your heels, right out the door
You can't call me Warrior
Don't call me that, don't call me that

Don't say there's hope for us
Don't say that I'll be okay
Oh, it's been long enough
That's not what I want you to say

You can't call me Warrior
Then turn on your heels, right out the door
You can't call me Warrior
Don't call me that, don't call me that
You can't call me Warrior
Then turn on your heels, right out the door
You can't call me Warrior
Don't call me that, don't call me that
