

Water Falls

Air Traffic Controller

Water falls, it always has
Water falls, it always will
Some things you can count on, all the others are a thrill
But water falls, it always will

Airborne, we are airborne
Flying through the night at record speeds
Call me, when you want me
The wisdom that you share, it can't be beat

Water falls, it always has
Water falls, it always will
Some things you can count on, all the others are a thrill
But water falls, it always will

Aching, for a shaking
We'll dance until the night turns red again
Follow, down the road 'till
We're out the state of mind that we were in

Water falls, it always has
Water falls, it always will
Some things you can count on, all the others are a thrill
But water falls, it always will

It may seem obvious to you
But it's not obvious to me
All I know is I know nothing
Nothing of the world that's running
Circles all around me daily

Airborne, we are airborne
Flying through the night at record speeds

Water falls, it always has
Water falls, it always will
Some things you can count on, all the others are a thrill
But water falls, it always will

Water falls, it always has
Water falls, it always will
Some things you can count on, all the others are a thrill
But water falls, it always will
Water falls, it always will
