

You Know Me

Air Traffic Controller

You know me
You know everything about me now
My heart is in your hands
And you know you could break it
But wouldn't you rather make me sing like this?

You know me
I try to find some good in everything
Since you came along
Some of this got easy
'Cause all you wanna do is please me, my love

This could be a roller coaster
But we're gonna make the most of it
Whether on top, or we're going down
You know me

You know me (I know you)
And how I get when I'm uncomfortable
If I'm too hot or cold
Tired, bored, or hungry
I'm fine when you're around me, boy

And you know me
I've never been on time for anything
I do apologize
I know its such a bother
I promise to try harder for you girl, I will

This is a risk we're taking
It's a love in the making
We've got nothing up our sleeves
We've got an understanding
I don't think we could have planned it better
I know, 'cause you know
You know me

You know me (you know me)
I work too much I'm always on the run
Honey, I know it's only just begun
You know how hard it can be
To go on chasing something
This could amount to nothing
When it's all said and done

I think you can make me better
I'm looking ahead, but I'll never
Regret anything that helped me see
But if you can be proud of me
And proud of yourself 'cause you got me
Then darling you know, yeah we both know
You know me

And I'll never hurt you darling
You know damn well
And I'll never make you wonder
If the things that I tell you ain't the honest truth

I bet a lot of folks can sing in harmony
But no one would ever know me like
You know me
You know me
