

You Think You Know

Air Traffic Controller

Falling apart, at the seams
'Cause you've given up on all your dreams
Have you had a look at yourself
Did you take the easy way out?

Or did you get lost along the way
And give in to everything you hate?
Settling down before you're up
Are you gonna finish what you started?

You think you know
But you have no idea what you have
You think you know
But you have no idea

Falling in love at such a young age
Do you think that that was a mistake?
Didn't it make you who you are today?
Broken your heart playing the games
And you want to hide with someone safe
Keeping in mind, what if they leave me?

You live a life of a million possibilities
And you never try to be whatever you wanted to be
You think you know but you have no idea

Have you had a look at yourself?
Did you take the easy way out?
Have you had a look at yourself?
Did you take the easy way out?

You think you know... no idea...

You think that life's such a big responsibility
So you never tried to be
What was it you wanted to be?
You think you know but you have no idea what you have
...
