

# Money

Airbourne

Stick 'em up baby  
You're driving me crazy  
I'm sick of your games  
It's time I got paid  
What's the combination, I'm losing my patience  
Your pussy's tighter than the united nations  
C'mon baby ay live them alone  
Lust is a must and I can't get enough some

Show me the money  
It's on the nickle and dime  
Come on show me the money  
I'll be your partner in crime

Digging for treasure ooh it's such a pleasure  
Come on honey let's do it together  
I love the way you shake your ass  
You've got the moves and I've got the cash  
What's the combination, I'm losing my patience  
My love is growing like the rate of inflation  
You got me loaded like a .357  
Open the bolt let me take you to heaven

Show me the money  
It's on the nickle and dime  
Show me the money  
I'll be your partner in crime  
Come on show me the money, feels so good  
Show me the money, you know you should  
Show me the money and set yourself free  
Show me the money, give it all to me oh yeah!

Oh yeah show me the money!  
Oh yeah!

Show me the money  
It's on the nickle and dime  
Come on show me the money  
I'll be your partner in crime  
Show me the money, feels so good  
Show me the money, you know you should  
Show me the money and set yourself free  
Show me the money give it all to me!

Show me the money  
Show me the money  
To save me see  
Show me the money  
Ay money  
Show me the money
