

# No Way But the Hard Way

Airbourne

I had a good job  
And a good lovin' woman  
But the world fell apart  
And then I lost her  
I can't bear to lose  
I'll be over to fight  
Can't drink enough whiskey  
To make it all right

But the tide will turn  
Cause I have learned

There ain't no way but the hard way  
Get used to it  
I said there ain't no way but the hard way  
So get used to it

You say I drink too much  
And that is a problem  
But that's how it goes  
When you hit rock bottom  
Don't need your advice  
Or your helping hand  
Cause I'm living on the road  
In a rock and roll band

The time will turn  
And you will learn

There ain't no way but the hard way  
Get used to it  
I said there ain't no way but the hard way  
So get used to it

The tide will turn (Yes it will) (Hey, hey)  
I'm gonna roll on (Hey, hey)  
I'm gonna stand strong (Hey, hey)  
For the long haul (Hey, hey)  
Its rock and roll

When the chips are down  
You gotta make your play  
'Cause there ain't no way (But the hard way)  
There ain't no way (But the hard way)  
I said there ain't no way (But the hard way)  
Oh no there ain't no way  
But the hard way

There ain't no way but the hard way  
Get used to it (Rock and roll)  
I said there ain't no way but the hard way  
So get used to it

There ain't no way but the hard way  
No way but the hard way  
No way but the hard way  
So get used to it

The tide will turn
