The Trial of Mr Riddle

Airship

Darkness follows you just like a storm cloud
You hang your heavy head like you are on trial

Nobody wants to be here for you anymore
So what am I still doing here if you don't care?

Just put down your guard an let me in
It's gone too far with lies for this pretence

Nobody wants to be here for you anymore
So what am I still doing here if you don't care?
This is intervention, you've gotta listen
And what am I still doing here if you don't care but you do

My love for you is like a white horse
Through black and blue we shall not divorce
Let me help you out

Nobody wants to be here for you anymore
So what am I still doing here cause you still care

Nobody wants to be here for you anymore
Nobody need you and we don't need nobody anymore

I will forgive you all
I will forgive you all
I will forgive you all
I will forgive you all
I will forgive you all

I will forgive you all
