

# This Is Hell

Airship

Get on in or get on out  
Members club, prove your pout  
They're climbing up but they'll fall down  
Because they can't see through their clouds

How can they be so cruel?  
Do they think we're so un-cool?  
They're climbing up the social ladder  
Throw up guts all over each other

This is hell  
This must be hell

I don't ever wanna be like that no  
I don't wanna be like them

They go out every night  
Perfect poise perfect smiles  
They don't seem to care at all  
Because they don't need to care at all

This is hell  
This must be hell

I don't ever wanna be like that no  
I don't wanna be like them
