

# Ghost Town

Airways

Prick a pin to help me feel  
Say a word 'cause no one will  
This information doesn't help me get high  
Turn away from something real  
Never who's thoughts I steal  
This information's gonna help me get by

I'll never live inside your ghost town  
Where no one talks or puts their phone down  
They'll pack us in and we'll never get home  
They'll close our eyes and we'll do what we're told  
I'll never buy in to the lies that we're sold

Flashing lights don't help me sleep  
Like a blithe I'm on repeat  
This information's keeping me up all night  
Switching up these blinds and screen  
Sick of being drawn so deep  
This strange obsession's taking over my life

I'll never live inside your ghost town  
Where no one talks or puts their phone down  
They'll pack us in and we'll never get home  
They'll close our eyes and we'll do what we're told  
I'll never buy in to the lies that we're sold

I'll never live inside your ghost town  
Where no one talks or puts their phone down  
They'll pack us in and we'll never get home  
They'll close our eyes and we'll do what we're told  
I'll never buy in to the lies that we're sold
