

Trampoline

Airways

We're sitting around like there ain't nothing to do
It's getting me down, I promise you now, it's really not true

Oh you like to mouth off
And fill the room up with your views
But do you ever shut up
You never shut up, I never get through

So get out of my face, when d'ya take a break, put you in your place
Wanna sit you down, say everything you do is fake
Been around here too long I can't wait, for something to come up so so I can
escape, I can't believe I'm still awake

I'm struggling to deal with the heat
And people freak me out on the street

So that's that gotta run like a rat
I don't fit, I won't come back
Got no time for this, yeah I really need to quit
Find another trampoline cause I'm losing it

I can't hack being caught in your trap
It's my life, so suck on that
Fed up with your shit and I really need to quit
Find another trampoline cause I'm losing it

Now you're walking around like you run some gangster crew
You've gotta wake up
You've gotta grow up
It's really not you

So get out of my face, when d'you take a break, put you in your place
Wanna take you down, cause everything you say is fake
Been around here too long I can't wait, for something to blow up so I can es
cape
I find it hard to stay awake

I'm struggling to deal with the heat
And people freak me out on the street

So that's that gotta run like a rat
I don't fit, I won't come back
Got no time for this, yeah I really need to quit
Find some other trampoline cause I'm losing it

I can't hack being caught in your trap
It's my life, so suck on that
Fed up with your shit and I really need to quit
Find another trampoline cause I'm losing it

I'm learning to fly
The future is mine this time
I'm learning to fly
