

Dreamer

Aisha Badru

I woken a dream
I forgot I was the dreamer
I got lost by a stream
It pulled me in deeper and deeper

I forgot this place is magic
I got lost in my bad habits
I've forgotten who we are
I've forgotten who we are

We've been blinded by a veil
Our slumber has gotten deeper
We turn heaven into hell
The grim reaper as our leader

We forgot this place is magic
Anything we want, we can have it
But we've taken it too far
We got lost within our scars

We forgot this place is magic
Anyone we want, we can have it
We forgotten who we are
But it's written in the stars
It is written in the stars
