Aitch

Yeah
Ooo baby
This is how I like it
Ooo baby
This is how I like it

She love this life
But it's lust when I'm up inside
Say that she done tryna trust these lies
But she love me 100 times
But she love me 100 times

White toes and her fingers match
If I miss that call know I'm ringing back
Ain't touching the crib
Just fucked in the whip cause the windows tinted black
CCs or the LVs
She can mix and match
Said her hearts still broke from the past
But I'm fixing that

Mad nights
We done been through sheets
Slide in from the back
Said I'm in too deep
Then asked me if I'd make her my wife
Shit it's only been 2 weeks
She fell asleep on the M way home
While I cruise and flick through beats
I don't know how we got this close so fast
But the thing's unique

Yeah
Too much fuss I'm fighting
But I know she's riding
Spread 'em open
Dive in
Put my phone on silent
Said this life gets tiring
But I know she likes it
Never home I'm grinding
She said

Ooo baby
This is how I like it
Ooo baby
This is how I like it

She loves this life
But it's lust when I'm up inside
Say she done tryna trust these lies
She she love me 100 times

If I fall would you pick me up
If I lost it all would it still be love
Would you call could we still be us, if we put it on pause would it kill the
trust

All my thoughts start building up
Have a brawl feel awkward and fill my cup
We ain't talked I don't feel the love
You ain't even my shawty it's real as fuck

You got me staying up late girl I just can't stay at this pace
Know your tryna be bey and I'm jay but we just ain't settling straight
I get a plane you get on my case these days it was never this way
Clearing my head cause I need this space these days it's better this way

Yeah
Some mistakes ain't for making twice
Speak my mind you don't take it light then reply tell me I don't say things
right
But I can't feel bad if I ain't done wrong thought life was a game till I pl
ayed too long said you Love this life so you played this song

Ooo baby
This is how I like it
Ooo baby
This is how I like it

She love this life
But it's lust when I'm up inside
Say that she done tryna trust these lies
But she love me 100 times
But she love me 100 times
