Aitch

Never lost a fight but lost my head a couple times  
Should've let 'em fuck me up to knock some sense into my mind  
All the women that I've fucked, with no rubber on the bus  
If they're ever up the duffs, some are definitely mine  
I'm just kidding, I just writ it, I'm just spittin'  
In your girls mouth, got the puss hissing', I love kittens  
I was in town with my fun stick on a fuck mission  
Then I woke up in my mums crib with my cum dripping  
I'm paranoid so get prepared to grab me  
Looked in the mirror then punched a cunt for staring at me  
I don't bust, I just leave with my nut, cause I scream when I fuck, now the  
[?] they're all scared to track me  
Today I woke up I ain't mentally there  
Like, I might go and shave the chest off my hair  
I know some thoughts that we got ain't meant to be shared  
But I'm tired of being quiet and pretending I care

So, most rappers are cunts  
Bout as bad as their mums  
Talking burning a pack  
Boy I'm packing your lunch  
Call me daddy my son  
Play the match and you won  
Give you a pat on the back  
Little slap on the bum  
All these gyal on the net  
Put your pants on a sec  
Sat in a car park, ass out, hands on the deck  
Tryna hand from one rich man to the next  
Well if you don't have bread bitch, have some respect

Man are pissed about the Brit speech  
They know shits peak, bitch please, listen when the king speaks  
Brothers bummy like some shit cheeks  
Sending bitch tweets acting like some pussy that I didn't beat  
Imagine we could just say what we thought  
I'll say it anyway fuck it play it in court  
Since I broke the fucking bank, I ain't breaking the law  
But if the police take my drugs, then I'm breaking his jaw  
You got tress in the crop let me see what you got  
Leave your cheddar looking like Swiss cheese when it's robbed  
Fuck your bro, fuck your sis, fuck your team, fuck your squad  
And if I catch a man streaming the opps, I hope your drop your phone on your  
head, when you're alone in bed  
I hope you die and wake up, with a hole in a chest  
Then head back to the hole where you rose from the dead  
Then I'll bury you alive, while you're holding your breath bitch
