

# You

AJ McLean

I've never been scared to talk to anyone in my life,  
But everytime I see you I lose it, get nervous, too perfect  
This ain't, this ain't fair  
It's not like me, lost for words it's not like me  
I might be gone (yeah)

Everytime you walk by  
I try to catch your eye  
But you pay no mind  
To me  
All I want is one chance  
For me to be your man  
I know it's not what you planned  
But I don't need nobody else  
If I got (you you you)

One night (one night)  
I just want to spend it with you  
I don't need nobody else  
If I got (just just just..)  
One night  
I just want to spend it with you  
I don't need nobody else  
If I got you  
If I got you  
I don't need nobody else  
If I got you  
If I got you

I ain't trying to be bold, but darling  
The way you look is alarming  
Take you by the arm and let's roll  
You got me losing my mind, when I see you  
I know it's just a preview,  
But I need you

Everytime you walk by  
I try to catch your eye  
But you pay no mind  
To me  
And all I want is one chance  
For me to be your man  
I know it's not what you planned  
But I don't need nobody else  
If I got (you, you, you..)

One night (one night)  
I just want spend it with you  
(I just want to spend the night with you)  
And I don't need nobody else  
If I got you  
One night, oh yeah  
I just want spend it with you  
And I don't need nobody else (just one night)

If I got you  
Nobody but you

If I got you  
And I don't need nobody else (I don't need nobody else)  
If I got  
I need you (nobody else, yeah)

All I want is one chance, for me to be your man  
I know it's not what you planned  
But I don't need nobody else  
If I got

One night (you)  
I just want to spend it with you  
(With you, with you)  
I don't need nobody else  
If I got  
One night  
(Just one night)  
I just want to spend it with you  
(Just one night)

And I don't need nobody else  
If I got  
You..  
(Just night I just want to spend it with you)  
You..

And I don't need nobody else if I got  
Nobody else but, nobody else but, nobody else but you, yeah  
Nobody else but, nobody else but, nobody else but you  
(And I don't need nobody else if)  
I got you
