

Burn

AJ Mitchell

I'll say the words, I just
Hate that I'm saying 'em first, yeah
What we had worth, I just
Can't watch it get any worse

We got red wine stains on the counter top
But we keep our pain all bottled up
How'd we get so cold? Damn, look at us
We're frozen up, so I'm

I'm gonna let it burn
Even if it hurts
Ooh, na-na
Nothing's gonna change until we up in flames
And someone's gotta strike the match first

I'm gonna let it burn
Even if it hurts
Ooh, na-na
Nothing's gonna change until nothing remains
It's been too dark to see the light
To see the light we gotta watch it

Burn, burn
Burn, burn
It's been too dark to see the light
To see the light we gotta watch it burn

Tables turned, rip the
Roses right out of the dirt, ayy
Before, what it's worth
I think what's best for us could mean the worse

We got red wine stains on the counter top (Counter top)
But we keep our pain all bottled up (Bottled up)
How'd we get so cold? Damn, look at us
We're frozen up, so I'm

I'm gonna let it burn
Even if it hurts
Ooh, na-na
Nothing's gonna change until we up in flames
And someone's gotta strike the match first

I'm gonna let it burn (Let it burn)
Even if it hurts (Even if it hurts)
Ooh, na-na
Nothing's gonna change until nothing remains
It's been too dark to see the light
To see the light we gotta watch it

Burn, burn (Even if it hurts)
Burn, burn (Burn)
It's been too dark to see the light (See the light)
To see the light we gotta watch it burn
