

Down In Flames

AJ Mitchell

What you're feeling now is a sudden rush
Getting mad, lashing out but I think it's love
We don't talk for days, try to reach your phone
So I'm done making plans when you call it off
I don't know what to say
Baby is it too late?
We just need to trust
And not mess it up
Sit it down, talk it out, just the two of us

So don't be afraid if the room gets hotter
I'll be putting this, putting this fire out
We'll be putting this fire out

Don't don't don't, don't let it go down
Don't let it go down in flames
Know we'll find the exit signs
And we're gonna be okay
The smoke in the air is gonna lead nowhere
I won't let, won't let it go down in flames

If you need your space
I'll give you a break
Give you time on your own just to clear your head
But when you say go
Think you mean to stay
I'll be here til the end, I won't go away

Don't be afraid if the room gets hotter
I'll be putting this, putting this fire out
We'll be putting this fire out

Don't don't don't, don't let it go down
Don't let it go down in flames
Know we'll find the exit signs
And we're gonna be okay
The smoke in the air is gonna lead nowhere
I won't let, won't let it go down in flames

It's like our hearts out of focus
And we didn't even notice
I won't let you down, I won't let you down again
What we've built isn't broken
But it can happen in a moment
And there ain't no way to burn when the fire's out

Don't don't don't, don't let it go down
Don't let it go down in flames
Know we'll find the exit signs
And we're gonna be okay
The smoke in the air is gonna lead nowhere
I won't let, won't let it go down in flames

Don't don't don't, don't let it go down
Don't let it go down in flames
Know we'll find the exit signs
And we're gonna be okay

The smoke in the air is gonna lead nowhere
I won't let, won't let it go down in flames
