

# Mind

AJ Mitchell

We go like oil and water babe  
We can't start fires in pouring rain, yeah

No I can't understand why I need you  
Like I come back to life when I breathe you

I admit it  
That I can't be without you I'm twisted  
I don't know how I got so dependent  
And I don't even mind, mind, mind  
I admit it  
Every time that we touch I get lifted  
When you're near I get high in an instant  
And I don't even mind, mind, mind

We spark like wires across the dark  
Tangled like fibers electric heart

No I can't understand why I need you  
Like I come back to life when I breathe you

I admit it  
That I can't be without you I'm twisted  
I don't know how I got so dependent  
And I don't even mind, mind, mind  
I admit it  
Every time that we touch I get lifted  
When you're near I get high in an instant  
And I don't even mind, mind, mind

I don't even mind  
You can take my time  
I don't even mind  
I don't even mind  
You can take my time  
I don't even mind
