Move On

AJ Mitchell

Tell me where your heart is
Tell me when it started
Beating too slow
Where did you go?

Play me like a classic
Tell me this ain't magic
I know you know
Know

I thought we were fine
I thought you were mine
Thought the only thing you'd take from me was all my time

I thought we were cool
Love can be so cruel
Now I know there's only one thing left that I can do

Baby I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love

Baby we could run it back to the old days
Maybe then we'll get back to our old ways
Let me take you to the place that we fell in love

I've been trying
Trying to live my life but
I'd be lying
If I said it felt right 'cause

Baby I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love

I'm starting to lose my mind
My sanity is yours to find
Like wait, how did we get here?
You know it can't end like that
With you just hitting send like that
Like wait, how did we get here?

I thought we were fine
I thought you were mine
Thought the only thing you'd take from me was all my time

I thought we were cool
Love can be so cruel
Now I know there's only one thing left that I can do

Baby I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love

Baby we could run it back to the old days
Maybe then we'll get back to our old ways
Let me take you to the place that we fell in love

I've been trying
Trying to live my life but
I'd be lying
If I said it felt right 'cause

Baby I don't really ever wanna move on
Come and meet me outside with your shoes on
Let me take you to the place that we fell in love
