

# Say It Again

AJ Mitchell

I can't hear you my heart's  
Beating loud as a drum  
Is it hot? I feel like  
I'm on top of the sun

And just let it roll, let it roll  
Let it roll off your tongue  
Once you say that shit once  
Once is never enough

How do you turn 3 words into magic?  
I don't understand...

So say it a-, say it a-, say it again  
Say you love me now  
Say it a-, say it a-, say it again  
Over and over come closer  
And closer and then  
Say it a-, say it again

Say you love me now  
Say you need me now  
Over and over come closer  
And closer and then  
(Say you love me now)  
Say it a-, say it again

Let 'em talk, let 'em talk  
Let 'em say we're too young  
They say I don't know nothing  
But I know you're the one

So beautiful when you put  
You and I are in love  
Once you say that shit once  
Once is never enough  
Is never enough, no

So say it a-, say it a-, say it again  
Say you love me now  
Say it a-, say it a-, say it again  
Over and over come closer  
And closer and then  
Say it a-, say it again

Say you love me now  
Say you need me now  
Over and over come closer  
And closer and then  
(Say you love me now)  
Say it a-, say it again

How do you turn 3 words into magic?  
I don't understand...  
How do you turn 3 words into magic?  
Like only you can...

So say it a-, say it a-, say it again  
Say you love me now  
Say it a-, say it a-, say it again  
Say you need me now  
Over and over come closer  
And closer and then  
Say it a-, say it again

Say you love me now  
Say you need me now  
Over and over come closer  
And closer and then  
(Say you love me now)  
Say it a-, say it again
