

Vultures

AJ Mitchell

I know you probably think I'm wasted
Prolly think you can hi my name is
Like the trouble you caused ain't famous
And everybody knows

You a different kind of vulture
Swooped in ruined my whole summer
Now you wanna talk it's torture
And everybody knows

The things you say behind back
So I just had to ask

Are you out your fucking mind that
Tryna say hi
Like you never let me down
Like I should forget by now

Are you out your fucking mind
Tryna say hi
How'd you pick me out the crowd
If all we are is strangers now

Then there's no reason
For me to know how you're feeling
Honestly, it kinda feels like freedom
The less that I know

If the past is in the past
Then I just had to ask

Are you out your fucking mind that
Tryna say hi
Like you never let me down
Like I should forget by now

Are you out your fucking mind
Tryna say hi
How'd you pick me out the crowd
If all we are is strangers now
