

# We Could Happen

AJ Rafael

I'll hold the door  
please come in and just sit here for a while  
this is my way of telling you  
I need you in my life  
It's so cold without your touch  
I've been dreaming way too much  
can we just turn this into reality

[Chorus]  
Cuz I've been thinking 'bout you lately  
maybe you can save me  
from this crazy world we live in  
I know we could happen cuz you know  
that I've been feeling you

Storms they will come but I know  
that the sun will shine again  
he's my friend and he says  
that we belong together  
and I'll sing a song to break the ice  
just a smile from you would suffice  
it's not me being nice, girl this is real tonight

[Chorus]  
Cuz I've been thinking 'bout you lately  
maybe you can save me  
from this crazy world we live in  
I know we could happen cuz you know  
that I've been feeling you

I know you want me

There's no other, there's no other love  
that I'd rather have, no  
There ain't no one, there ain't no one else  
I want you for myself

[Chorus]  
Cuz I've been thinking 'bout you lately  
maybe you can save me  
from this crazy world we live in  
I know we could happen cuz you know  
that I've been feeling you

I know you want me

Cuz I've been thinking 'bout you lately  
maybe you can save me  
from this crazy world we live in  
I know we could happen cuz you know  
that I've been feeling you

I know you want me, too  
I know you want me, too
