Saying you love me, then show me you do
I got sittin' in my trackies and it's only for you, girl
Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe

Saying you love me, then show me you do
I got sittin' in my trackies and it's only for you, girl
Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe

They say a hug from your mother's like a million quid
I hugged my mother when I finally made a million quid
Friends that used to fuck with loonz were thinkin', "Why don't he quit?"
Man are baffled that I switched it, now I'm fully legit
I push big whips, make big deals, bought a big stick
Big gyal, see dem set good cah they're big thick
Grey Nike tech, big print from my big shank
Or my big dick, I'm a big prick
And I could be your rider
Swap your bag for designer
Shout Kim Jones, it's a minor
When life gave me lemons
I put batteries in the tenita
Brudda, I ain't ever been a whiner
I like girls that can converse, paint words
Top 3, but she not second, and she ain't third
I run it up, and she run it up, yeah she make hers
Drive me home, bonnie clyde settings, we can take turns

Saying you love me, then show me you do
I got sittin' in my trackies and it's only for you, girl
Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe

Saying you love me, then show me you do
I got sittin' in my trackies and it's only for you, girl
Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe

You got a girl that the whole world wants
But she only want you, that's a whole world stunt
We should get it there girl just to roll up blunts
Just like these boys get bros just to do their stunts
Question, tell me what you think about me?
I've got my own diamonds and I buy my own rings
Don't worry 'bout it when you're with me
Baby this is a big girl thing
We can smoke and drink
We can sip and paint
Up tight every day
Kick it at my place
Lay in bed and play
Fuck and make me rain
All I want to do is you
What better for me to do
Me and you, we are flex together
Before us you ain't know no better

Saying you love me, then show me you do
I got sittin' in my trackies and it's only for you, girl
Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe

Saying you love me, then show me you do

Holding you down, I'ma give you the truth
We can kick it in the truck or we can touch in the coupe
